

Consent for the next tenant to move in earlier

This form is to be filled in when you want the next tenant to take occupancy of the accommodation during your period of notice. In order for an earlier move-in to be possible, the move-out inspection must be carried out and approved (book this with the caretaker) and the keys returned to the Service Centre. We inform the next tenant if it is possible to move in earlier. Bear in mind that you are responsible for everything concerning the rental contract up to and including the last day of the contract period. Any settlement regarding the rent is regulated between you and the next tenant.
